

Environmental Policy

L&M Keating Ltd. recognise and take full cognisance of the environmental importance of all its work activities and commits itself to implement whatever best practice dictates to best preserve the environment, ecological habitat and surrounds by way of this work activity.

L&M Keating Ltd. will adapt an Environmental Management Plan that will allow the company to consistently control its significant impacts on the environment, reduce the risk of potential pollution incidents, ensure compliance with environmental legislation and continually improve its business operations

Within the framework of our Environmental Management Plan L&M Keating Ltd. commit to:

- Providing a policy that is appropriate to our activities, products and services and their impacts on the environment.
- Identify materials, processes, products and wastes that cause or may cause pollution, and will implement measures to avoid, reduce or control pollution where technically and economically viable;
- Comply with applicable environmental laws, regulations, codes of practice, and other environmental requirements to which the company subscribes. To achieve and maintain compliance, we will develop and maintain management systems for identifying relevant requirements and for monitoring performance of related activities; and
- Continually enhance and improve the Environmental Management System by conduction regular management reviews to ensure that it is appropriate and effective for helping us to achieve our environmental goals.
- Communicate L&M Keating's Environmental policy to all staff, contractors, public and all stakeholders

This policy and our procedures are regularly audited through our established Environmental Management System. In addition to conducting an annual review, we regularly monitor government environmental initiatives and seek to continually improve the effectiveness of our environmental measures.

Signed: 
Gordon O'Regan
Managing Director
